PROFESSIONAL SUMMARY

Results-driven Senior Software Developer with over 5 years of experience architecting enterprise-grade solutions for the industrial, banking, and government sectors. Expert in bridging the gap between complex business requirements and technical implementation using Java ecosystems and Microsoft Power Platform. Proven success in leading digital transformation initiatives, optimizing legacy workflows, and delivering high-availability systems that improve operational efficiency.

TECHNICAL EXPERTISE

- **Backend Engineering**: Java (Spring Boot), PHP (Laravel Framework), Python.
- **Frontend & UI**: React, Angular, HTML5, CSS3, JavaScript.
- **Enterprise Solutions**: Microsoft SharePoint Administration, Microsoft Power Platform (PL-500 Certified), ISO Compliance Systems.
- **Tools & DevOps**: Git, SVN, Firebase (FCM), RESTful APIs.
- **Methodologies**: Agile Scrum, SDLC, Business Process Analysis.

WORK EXPERIENCE

Software & Development Officer | PT Kaltim Parna Industri *May 2019 - Present*

- **Enterprise Digital Transformation**: Spearheaded the digitization of ISO Audit reporting (9001, 14001, 45001) by engineering an Integrated Management System, reducing audit preparation time and eliminating manual HIRACOP documentation errors.
- **System Architecture**: Architected and deployed the Incident Report Monitoring System (IRMS), successfully improving incident tracking efficiency by 100% through automated workflows and real-time data visualization.
- **Product Leadership**: Led the end-to-end development of the Laboratory Information Management System (LIMS), streamlining chemical sample analysis and significantly increasing inventory accuracy for the QC department.
- **SharePoint Integration**: Designed and managed a centralized Document Digital Library using Microsoft SharePoint, ensuring secure data access and compliance with corporate information governance.
- **Web Operations**: Manage the full lifecycle of PT KPI's corporate website, ensuring high availability, security patching, and performance optimization.

Independent Software Consultant | Remote *August 2025 - Present*

- **Government Solutions (Bontang City)**: Developed a scalable City Sanitation Management Application for the Bontang City Government, enabling digital data collection for improved public health monitoring and decision-making.
- **E-Commerce & Hospitality**: Engineered a custom Hotel Booking Engine for Lucky Property, featuring real-time room availability checks and a seamless user reservation flow to drive direct bookings.
- **Corporate Branding**: Designed and deployed a high-performance corporate landing page for PT RAAT, establishing a professional digital presence optimized for SEO and lead generation.

Java Developer | PT Emerio indonesia *Nov 2018 - May 2019*

- **Fintech Development**: Developed mission-critical backend services for PT Bank Danamon, focusing on secure payment gateway endpoints (EDC, Payroll) and ensuring 99.9% transaction reliability.
- **API Integration**: Facilitated seamless third-party integrations for high-volume financial transactions, strictly adhering to banking security standards

Backend Developer Intern | PT Global Visi Media *Jun 2017 - Aug 2017*

- **Real-time Systems**: Implemented Firebase Cloud Messaging (FCM) API services to power real-time push notifications for the Womantalk Platform, directly enhancing user retention and engagement.

EDUCATION

Bachelor of Informatics Engineering | Del Institute of Technology *Aug 2014 - Sept 2018*

- **Major:** Informatics Technology (GPA 3.02)
- **Awards:** Regional Finalist, Bukalapak Programming Contest (Sumatera, 2016)

AWARDS

- **Regional Finalist:** Bukalapak Programming Contest Regional Sumatera (2016).

CERTIFICATIONS & TRAINING

- **Microsoft Certified:** Microsoft SharePoint for Administrators and Power Platform (PL-500) - Mitra Integrasi Informatika.
- **Web Frameworks:** PHP Laravel Framework Fundamentals - Brainmatics.
- **Data Science:** Data Visualisation with Python - Trainocate.
